Please email for a booking form

Be a part of this fresh and unique opportunity to see magnificent live minibeasts as you never have before. Participants will be left with memorable experiences after viewing the display of minibeasts.

The public continually ask 'how long are you here for'? The attraction of the Spineless Wonders exhibition brings return business to your shopping centre. Children love to revisit their favourite minibeast friends which they have already met at their school.

David and Fleur Knowles enthusiastically share their passion for flora and fauna with patrons. They have the ability to engage their attention and answer questions to any developmental level by drawing upon his wealth of knowledge and experience.

Why Spineless Wonders

Spineless Wonders brings together unique insights and powerful images of Insects and Arachnids in an educational presentation that never fails to inspire. Our goal is to install a correct perspective of life's wonderful biodiversity in all people as well as leave them with images that will pervade their thoughts and attitudes for the rest of their lives. We aim to make a difference!

"Invertebrates play a crucial ecological role as major pollinators, sap suckers, leaf pruners, recyclers, predators and prey."

Spineless Wonders Testimonials

<p>It was great having you there and certainly I got excellent feedback and saw people having lots of fun with your creatures. Lovely to meet you and work alongside your gentle grace...</p>	<p>'Spineless Wonders is really very popular, I'll have them again'.</p>	<p>Thank you so very much for your wonderful display and flexibility on the day!</p> <p>We have got so much positive feedback about you guys and your stand - I would love to have you again if we can!</p>	<p>... we received lots of positive feedback, I would especially like to thank David for a well delivered presentation and for your patience in answering all questions asked.</p>	<p>Many thanks, your display was great! I had some great feedback in regards to you guys and I saw a crowd with you essentially all day. You both worked very hard for our event which we are grateful and appreciative of, thanks</p>
<p>Linda City of Cockburn</p>	<p>Centre Manager Karindya Park Shopping Centre</p>	<p>Sonja City of Cambridge</p>	<p>Marketing Manager The Bentley Centre</p>	<p>Leonie Sunfair UWA</p>

Fleur Knowles explaining to children how stick insects camouflage in the branches.

David Knowles showing Macro the giant burrowing cockroach from Queensland that recycles dead gum leaves.

Spineless Wonders successfully displays in hundreds of schools, libraries and at many council events and the following shopping centres, some many times:
